Acceptance and Refusal of Authorisations

POLICY

POLICY STATEMENT

Our organisation has a responsibility to protect the health, safety and wellbeing of every child in attendance. We require written authorisation for actions such as administration of medication, collection of children, emergency management, excursions and transportation of children. This policy outlines what does or does not constitute a correct authorisation, which consequently may lead to a refusal.

BACKGROUND

The *Education and Care Services National Regulations* require approved providers to ensure their services have policies and procedures in place in relation to the acceptance and refusal of authorisations. Written authorisations from parents/guardians and authorised nominees help to ensure that the health, safety, wellbeing and best interests of all children are met. Through the authorisation process, parents/guardians are informed of risks associated with a matter, and can make an informed choice whether or not to proceed.

 - Children leaving the premises in the care of someone other than the parent or guardian
 - Excursions
 - Obtaining medical care for children (including ambulance transport)

- Parents/guardians are informed of their right to refuse authorisations and the impacts of a refusal.
- Parents/guardians may add additional authorisations throughout their child's time at the service, but these must be in writing. If staff receive a verbal authorisation, they will refuse the authorisation until it is put in writing.
- Staff are required to ask any unfamiliar visitors to show photo identification, *e.g.*, *driver's license*, in order to collect a child from the service. Identification is to be checked against the authorisations in the child's enrolment record prior to a child being collected from the room.

STORING AUTHORISATIONS

- Authorisations are stored in the enrolment record and on the service's customer management software.
- If parents/guardians add additional written authorisations throughout their child's time at the service, these are to be stored with the enrolment record.

CONFIRMATION OF AUTHORISATIONS

- All authorisations received are to be checked:
 - for completion by the approved provider, nominated supervisors or responsible persons.
 - that the name and signature of the authoriser is the nominated parent/guardian.
- If incomplete or inappropriately signed, the authorisation form should be returned to the parent/guardian for correction.
- Children will not be able to commence at the service, or will be suspended from any activity requiring authorisation, until the appropriate authorisations have been correctly completed and signed.
